TEES VALLEY MAYOR

COVID Recovery Monitor

In the year since Jan-22, the number of Tees Valley **payrolled employees** has increased by 6,983 to 288,031 in Jan-23.

Numbers on **Universal Credit - Out of Work** increased by 4,165 (up 8.0%) on the year. Numbers have increased by 1,879 since October.

Job Vacancies jumped by 1,321 in January. They are now 1,729 above where they were one year ago.

Business and Consumer Confidence

Energy prices continue to impact negatively on firms across the country. In early January, 28.4% of North East firms reported that both production and suppliers had been affected. This is the highest rate of any region or country of the UK and well above the UK rate of 16.0%.

ONS UK retail sales volumes picked up by 0.5% in January 2023. This followed a fall of 1.2% in December. Non-store retailing (mostly online retailers) rose by 2.0% in January with non-food stores sales volumes up by 1.7%. In contrast food store sales volumes were down by 0.5%.

Continuing the recent downward trend, just 2.1% of North East firms reported experiencing a shortage or workers in early January. This was the lowest rate of any region or country of the UK and significantly below the UK rate of 11.5%.

The UK GfK Consumer Confidence Index picked up in February and has now increased for four of the past five months. However, at -38 it remains near historically low levels.

Movement of People

Following the slight upward trend in North East regional road/traffic car usage patterns since the turn of the year, the second half of February saw numbers drift lower.

Teesside Airport passenger numbers in December 2022 (10,992) were down 2% on that for November 2022. However, compared with December 2021, numbers were 90% higher.

The latest BRC-Sensormatic IQ data reports that UK footfall increased by 10.4% in February compared to one year previously. However, February footfall was 2.1 points lower than in January. UK High Street footfall increased by 17.8% on the year with Shopping Centre footfall up 11.7% but Retail Parks footfall was 3.3% lower in February 2023 compared with February 2022.

For the 4 week period ending 12th February, cargo ship and tankers visits to Tees and Hartlepool ports increased by 18% compared to the preceding four week period. This increase was only partly down to reduced activity over the festive period.

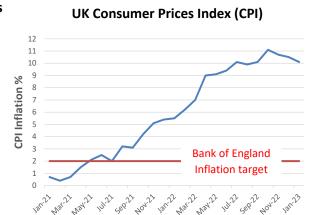

Macro-Economic Headlines

75.6%
UK Employment Rate for 3

months to December 2022

0.0%

UK GDP was unchanged in the 3 months to Dec'22

- The Bank of England aims to keep CPI inflation within 1% either side of its 2% target.
- UK Inflation was 10.1% in January, down from 10.5% in December but up from 5.5% in January 2022.
- The UK employment rate of 75.6% for Oct-Dec was up by 0.2% on the previous quarter but still 0.9% lower than before the pandemic.
- UK GDP was unchanged in the Oct-Dec quarter of 2022 when compared to the previous quarter. The Bank of England expects GDP to fall slightly throughout 2023 and 2024 Q1.
