Next Releases: UC is 17th May 2022; APS is 19th July 2022 and AC is 19th July 2022. Multiple official rates of unemployment are produced at different times by various Government departments. Universal Credit (DWP) figures are released monthly, whilst Annual Population Survey (ONS) and Alternative Claimant Count (DWP) rates are quarterly. 'Latest' refers to the most recent data release, whilst 'Previous' indicates the second most recent figures. APS figures relate to all those aged 16+ and actively seeking work and uses the economically active population to calculate a rate. The AC rate is a model-based approach that estimates unemployment figures had UC been rolled out in all regions concurrently, as opposed to its actual, phased introduction. *Universal Credit are those 'Searching for Work' only.

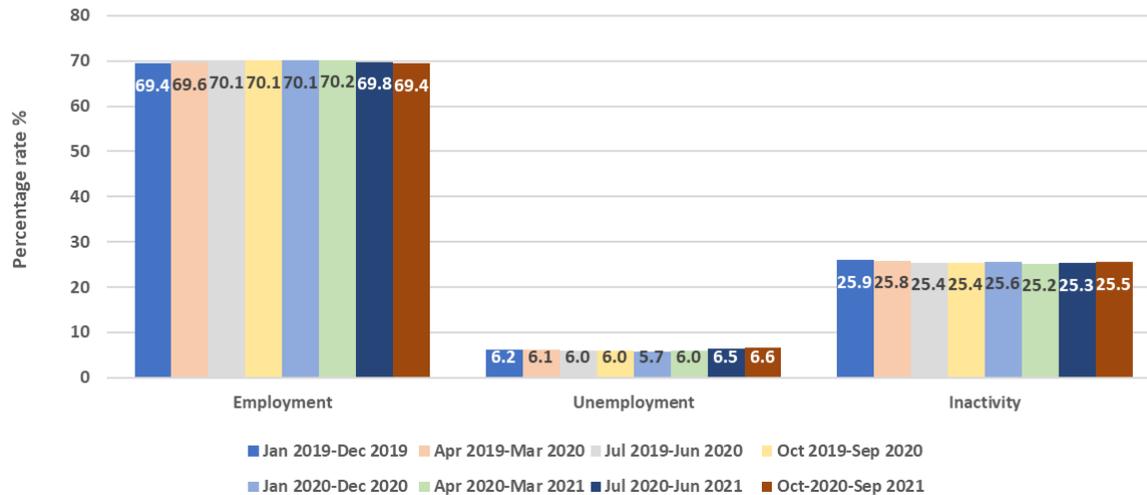

Month-on-month UC Claimants in Tees Valley have seen a small drop of 0.2% and is the only employment measure to fall in the most recent reading for Tees Valley.

Alternative Claimant Count is up 0.1% in February 2022 compared to January 2022, whilst the Annual Population Survey also saw an increase of 0.1%

Nationally, those claiming UC whilst searching for work stayed constant at 4.0% in March 2022 compared to the previous month. Whilst the APS fell by 0.4% for the year ending Dec 2022, compared to the previous reading.

For Great Britain, the Alternative Claimant Count rose slightly to 0.1% in February 2022 compared to the reading shown in January 2022.

Quarterly Changes in Tees Valley Rates

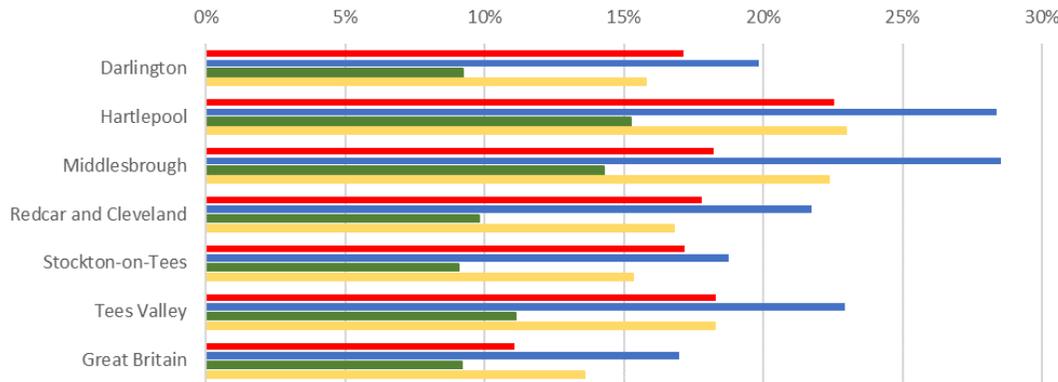

Source – APS/ONS: Tees Valley Employment and Economic Inactive rates of those aged 16-64 and Unemployment rate of those aged 16+ as a percentage of the economically active population.

- Tees Valley quarterly Unemployment rate is **6.6%**.
- This is an **increase of 0.1 percentage points** from the previous quarter. Tees Valley Employment, Unemployment and Economic Inactivity trends appear to be performing better than national trends. The Tees Valley employment rate is in line with Jan-Dec'19 pre-pandemic (GB down 1.0%), Tees Valley unemployment up 0.4% (GB up 0.5%) and Tees Valley economic inactivity down 0.4% (GB up 0.5%).
- North East regional data provides more up to date analysis for a wider geography. NE unemployment rate stands at 5.4% for Dec 21-Feb 22 (down 0.2% from Nov 21-Jan 22 reading). This in line with the England unemployment rate (4.0% - down 0.1% from the previous reading).
- North East unemployment data is back to moving in tandem with the national data, after previously diverging from the national trends during October/November 2021.
- Economic inactivity rate of those aged 16-64 in Tees Valley has started to rise over the last two reading, up 0.3 percentage points for the year ending Sep '21 compared to the reading for year ending Mar '21.

Universal Credit – Tees Valley All Claimants Breakdown
